

HOW COVID-19 CORONAVIRUS SPREADS...

Coronaviruses are a large family of viruses which may cause respiratory infections. **The virus spreads when droplets come in contact with your eyes, nose or mouth.**

< SICK PERSON

STAY HEALTHY...

2M DISTANCE

Avoid crowds and keep a 2m distance when you notice someone coughing, sneezing or sick.

Wash your hands regularly with soap for 20 seconds or use hand sanitizer with *70% or more alcohol content.*

Use cleaning products such as Quadricide, Geo Germ, Jik or Biocide to kill germs.

Sometimes a sick person's saliva can get on other things - avoid touching your face or your loved one's face. Wash and sanitize your hands regularly.
